

MECASOLAR attends ENERSOLAR BRASIL

- **MECASOLAR is attending one of the leading solar events in Brazil, to be held in São Paulo from 15 to 17 July.**
- **The company will exhibit its products at stand 402, along with local partners BRAFER and GRUPO ENERGIA.**

13 July 2015. MECASOLAR –specialising in the design and manufacture of solar trackers, fixed structures for ground and roof-mounted solar installations, and foundation screws for PV solar farms, will be one of the exhibitors at ENERSOLAR BRASIL, the leading solar event in Brazil, to be held in São Paulo from 15 to 17 July.

The multinational firm will share stand 402 with local partners, leaders in the Brazilian solar market. BRAFER is a major designer and manufacturer of steel structures that was established 40 years ago. It produces structures for more than 40,000t a year. GRUPO ENERGIA develops a wide array of technology solutions in the energy sector, having contributed 20GW so far to projects in Brazil.

The three partners together will offer comprehensive solutions for the development, supply and assembly of solar projects in the Brazilian market.

By participating in this event, **MECASOLAR** seeks to strengthen its position in Brazil, a market where it is highly active through collaboration in a series of projects.

ABOUT MECASOLAR

www.mecasolar.com

MECASOLAR specialises in the design, manufacture and supply of dual-axis and horizontal, azimuth or polar-aligned single-axis trackers, fixed structures for ground- and roof-mounted solutions, and MECASCREW foundation screws for PV solar facilities.

The company's trackers, for a total power of over 400MW, have been installed in more than 40 countries. MECASOLAR has manufacturing plants in Spain, Canada, USA and Greece.

MECASOLAR participa en ENERSOLAR BRASIL

- **MECASOLAR participa en uno de los principales encuentros del sector fotovoltaico brasileño, que se celebrara en Sao Paulo del 15 al 17 de julio.**
- **La compañía compartirá espacio, stand 402, con sus partners locales BRAFER y GRUPO ENERGIA.**

13 de julio de 2015 - MECASOLAR—especializada en el diseño y fabricación de seguidores solares, estructuras fijas para suelo y tejado, y tornillos de cimentación para grandes plantas solares fotovoltaicas – participa en ENERSOLAR BRASIL, principal encuentro fotovoltaico del país, celebrado en Sao Paulo del 15 al 17 de julio.

La multinacional, compartirá espacio - stand 402- con dos partners locales, actores de primer nivel del mercado fotovoltaico brasileño. BRAFER, compañía líder de construcciones metálicas, con más de 40 años de dilatada experiencia y una capacidad de fabricación de más de 40,000 toneladas anuales; y GRUPO ENERGIA, desarrollador local de todo tipo de soluciones tecnológicas energéticas, que cuenta con más de 20GW de experiencia en desarrollo local.

Las tres compañías, ofrecerán de manera integral las más completas soluciones de desarrollo, suministro y montaje al mercado brasileño.

MECASOLAR refuerza con su participación en el evento su presencia en el mercado brasileño, donde la compañía está participando de forma muy activa a través de diversas colaboraciones para proyectos del mercado local.

ABOUT MECASOLAR

www.mecasolar.com

MECASOLAR está especializada en el diseño, fabricación y distribución de seguidores fotovoltaicos de 2 Ejes, seguidores fotovoltaicos de 1 Eje -Azimutal, Polar y Horizontal-, Estructuras Fijas para suelo y tejado y Tornillos de Cimentación MECASCREW para instalaciones fotovoltaicas.

Sus seguidores están instalados en más de 40 países con una potencia superior a 400 MW. Cuenta con plantas de fabricación en España, Canadá, Estados Unidos y Grecia.

A MECASOLAR participa do ENERSOLAR BRASIL

- A MECASOLAR participará de um dos principais encontros do setor fotovoltaico brasileiro, que será realizado em São Paulo de 15 a 17 de julho.
- A empresa compartilhará o espaço, no estande 402, com os seus parceiros locais BRAFER e GRUPO ENERGIA.

13 de julho de 2015 - MECASOLAR especializadas no projeto e na fabricação de seguidores fotovoltaicos, estruturas fixas para solo e telhado e parafusos de cimentação para grandes centrais de energia solar fotovoltaica - participará do ENERSOLAR BRASIL, principal encontro do setor fotovoltaico do país, realizado em São Paulo de 15 a 17 de julho.

A multinacional irá compartilhar o espaço - no estande 402 - com dois parceiros locais, empresas de primeiro nível do mercado fotovoltaico brasileiro. A BRAFER, empresa líder em construções metálicas, com mais de 40 anos de experiência e capacidade de produção de mais de 40.000 toneladas por ano; e o GRUPO ENERGIA, desenvolvedor local de todos os tipos de soluções tecnológicas de energia, com mais de 20 GW de experiência em desenvolvimento local.

As três empresas irão oferecer, de modo abrangente, as mais completas soluções para o desenvolvimento, o fornecimento e a instalação para o mercado brasileiro.

A **MECASOLAR** reforça sua presença no mercado brasileiro com sua participação no evento, onde a empresa participa de maneira muito ativa, através de várias colaborações em projetos do mercado local.

SOBRE A MECASOLAR

www.mecasolar.com

A **MECASOLAR** é uma empresa especializada no projeto, fabricação e distribuição de seguidores fotovoltaicos de 2 eixos, seguidores fotovoltaicos de 1 eixo – azimutal, polar e horizontal – estruturas fixas para solo e telhado e parafusos de cimentação MECASCREW para instalações fotovoltaicas.

Seus seguidores estão instalados em mais de 40 países com uma potência superior a 400 MW. Possui instalações de fabricação em Espanha, Canadá, Estados Unidos e Grécia.
